**FUELS LTD**

## Running the Business

This is a superb opportunity to run your own Bio UK Fuels franchise from your own depot. You will primarily be engaged in the manufacture and sale of B100 Bio Diesel to the public and wholesale commercial users. You do not need to have a manufacturing background but you do need to be hands on and good at people management. Previous business experience would be very advantageous.

The business is very simple in you build up a collection of waste oil pickups and also purchase waste oil on a bulk basis.

The key day to day tasks involved in running the business include

Making the fuel

Collecting waste oil/Stock control

Marketing the business

Various compliance functions E.A Customs etc

Staff management

Cash control/ banking

**You're on target earnings for the end of year 2 should be in the region of £125000 with on target earning at the end of year 3 in excess of £157000**

# The Franchise Package

**The Bio UK Fuels franchise package includes all of the following items to help you build your own Bio Diesel manufacturing and sales business.**

## **Total Franchise Package Licence Fee**

**£10,000 Plus VAT (excluding licence application fee)**

## **Your additional expenses**

In addition to the above franchise package fee there will be other costs associated with the set up of your Bio UK Fuels franchise. We expect the costs of the depot to be in the region of £80,000 assuming you lease the Fuelmatic reactor system.

**You will also need working capital in the region of £40,000 to £50,000**

## Training and Support

Bio UK Fuels is committed to providing a quality branded fuel to our customers. We will train you to make Bio Diesel using the Fuelmatic processor and also to test the fuel to ensure quality throughout the process.

We will provide 5 days training at our existing Depot in Sheffield and also provide further 5 days onsite training at your own branch after your Fuelmatic has been installed.

We also understand that the processes used in the manufacturing of Bio Diesel can be daunting. For this reason we also provide ongoing technical support and will be at your side within 24 hours of a problem arising if this is needed.

Bio UK Fuels will also provide comprehensive training on all the systems and procedures which need to be followed to comply with all the relevant statutory requirements.

We provide ongoing environmental consultancy as well as a twice a year environmental audit to ensure you are complying with the most up to date advice regarding environment agency compliance.

Bio UK Fuels provide ongoing support with marketing we insist all franchisees use our pre designed marketing and advertising literature. This ensures we promote a consistent corporate image across the market place to all our clients.
